COLLEGE of JOURNALISM

## COLLEGE and HIGH SCHOOL STUDENTS

Thinking about a career in  
broadcast news?

Don't miss this day full of hands-on  
experiences, seminars and face-to-face  
time with broadcast professionals from  
around the region!

### Space is limited.

This is **your** chance to meet and get  
advice from news directors and other  
newsroom leaders.

The day kicks off with a panel of news directors and other newsroom leaders offering insights into the job market and advice about getting your first job.

All students will rotate through a series of sessions that include: Video Story-telling; Going live (with a chance to test your skills); Getting that first job; Producing; and AI in the Newsroom. There will also be two alternative sessions: Documentary/Long-form and Radio & Podcasting.

There will be lots of opportunities—along with sign-ups—for one-on-one sessions with the pros who can review resumes, resume reels and provide job interview tips.

The day concludes with words of advice and a question & answer session with veteran broadcasters who are members of our NCCB-NATAS Gold & Silver Circles.
